

BUILDING STRONG FOUNDATIONS IN EARLY LITERACY & STEM

At Ray D Bunch Academy, every day is a new opportunity for discovery! Our literacy-rich environment helps children develop a love for reading and language through interactive and age-appropriate activities such as:

- Letter & Sound Recognition – Fun games and songs that help children identify letters and their sounds.
- Story Time & Read-Alouds – Daily reading that enhances vocabulary, comprehension, and imagination.
- Writing & Fine Motor Practice – Early writing activities using tracing, drawing, and storytelling.
- Phonemic Awareness Activities – Rhyming, word play, and sound blending to prepare for reading success.

EARLY LITERACY ADVENTURES

We also integrate literacy across all learning areas—during play, art, science, and dramatic exploration, so children see that words and communication are everywhere. Teachers model rich vocabulary and encourage curiosity by asking open-ended questions that invite children to think, share, and create. From curious infants to eager preschoolers, every child at Ray D Bunch Academy embarks on a literacy journey that nurtures imagination, confidence, and a lifelong love for reading.

STEM EXPLORERS IN ACTION

We spark curiosity and critical thinking through exciting STEM (Science, Technology, Engineering, and Math) projects tailored for young learners. Children explore the world around them by:

- Building and Designing – Using blocks, magnets, and recycled materials to construct creative solutions.
- Simple Science Experiments – Observing cause and effect through activities like mixing colors or planting seeds.
- Math Through Play – Counting, sorting, measuring, and patterning with real-life objects.
- Technology Exploration – Introducing children to early coding, digital literacy, and interactive tools safely.

GROWING IN FAITH AND PURPOSE

Alongside literacy and STEM, we guide children to grow spiritually, learning to be kind, respectful, and thankful. Through prayer, stories, and character-building activities, children gain a deeper understanding of God's love and their unique purpose in His plan.

**AT RAY D BUNCH ACADEMY, WE PLANT THE SEEDS OF KNOWLEDGE, CREATIVITY,
AND FAITH! HELPING EVERY CHILD GROW AND
FLOURISH.**
